The District is pleased to announce that online payments are available for the water bills on the District's website for a nominal service fee @ www.harriscountywcid36.com. Alternate methods of payment for your water bill are automatic bank draft, check, or money orders. An authorization form will need to be signed for automatic bank draft along with a voided check to activate the automatic bank draft service. Your monthly bill will still be mailed at the same time, and the bill will reflect "this amount will be drafted from your account by the due date". The District no longer accepts any cash payments.

"Fix a Leak Week" is March 17-23, 2014, and we encourage all residents to check for any leaks. Check all faucets for drips, check toilets for silent leaks and make sure all outside faucets are tight and do not drip. A small drip can increase your water consumption and increase your water bill. The District has water conservation pamphlets available in the office, and they are also accessible on the District's website. Also, please remember to monitor your water bill for unusually high use. Your bill and water meter are tools that can help you discover leaks which will save you money. **"Water, please Use It Wisely!"**

The District has a limit of one water connections per lot. "Meaning only one living unit and one meter is allowed per lot". Customers needing to replace plumbing must have permits before replacing any water or wastewater lines. In addition the District must file an inspection report on this work before the plumbing pipe is covered up or buried. Contact the office for more information at 713-453-5493.
